*I really enjoyed my time at Phoenix. The academic support I received was very individual, personal and motivating. The teachers were able to provide a wide variety of experience and real life scenarios.*

*The Diploma of Business has really helped me in my university studies. So far everything I have learned at Phoenix has made my life at university (in England) really easy - in terms of academic challenges. I have to say I got a really good knowledge out of the course.*

*I will never forget my stay in Australia - the incredible kindness of the people. Especially my supportive host-family made my life down under such a wonderful experience. Also some of the adventures I had - I hired a camper van and travelled along the west coast of Australia, great fun.*

*Advice for any others that are thinking of coming to Australia - bring a lot of sun block. Try to experience as much as possible. Go travelling when possible. If there isn't a good public transport service in your region, get a car straight away. As the used car market is very active you can sell it at the end of your stay anyway.*
